BERLIN-ZOO The status on 1 January 2007 is 2.1.0 instead of 1.2.0 as listed on 31 December 2006.

Summary

There has been a slight increase in the size of the population over this two year period, this has brought a welcome increase in the number of females and resulted in an almost ballanced sex ratio.

The priorities for this programme are to produce a masterplan and to find more institutions willing to work with the species.
