| Dates: | 14 January 2019 (Optional ZIMS for Studbooks training on 14 January) |
| Delivery Method: | face to face |
| Location(s) : | EAZA Executive Office, Amsterdam, Netherlands |
| Links to other courses: | A top up training for those who have previously completed the Basic Breeding Programme Management course |

Course Aim(s):

This course aims to support experienced coordinators in becoming proficient with the new ZIMS for Studbooks software that is replacing SPARKS for data and programme management. This course will introduce the new software, and explain how to manage updates to your studbook, maintain the best possible data quality, use reporting tools, and export your data to PMx.

Learning Outcomes:

By the end of this course you will be able to:

1. Orient yourself in the new ZIMS for Studbooks module
2. Keep your studbook accurately updated
3. Use reporting and analytical tools (including export to PMx)

Additional information:

You will need to bring your own laptop to work on as part of this course. We recommend installing the Google Chrome browser for an optimum ZIMS experience . Using Mac computers for the course is not recommended – EAZA has a small number of laptops that participants can borrow to use in the course, subject to availability.

Please note this training is only open for previously trained coordinators, new and prospective coordinators should complete the Introduction to EEP Management course.

How to apply:

Complete an application form (available at <http://www.eaza.net/academy/courses/>) and send it to laura.myers@eaza.net putting the course title in the subject line. Once you have submitted your application you will be contacted to confirm whether you have been accepted onto the training event.
