

Munich Zoo Hellabrunn is one of the largest, internationally recognized zoos of 40 hectares and with more than 500 animal species. Hellabrunn is one of the most important cultural and educational attractions in Germany with over two million visitors every year.

We are seeking creative talents who are enthusiastic about and want to commit themselves to the diversity of life for our diverse tasks and ambitious development plans,

Munich Zoo Hellabrunn is seeking a

CURATOR (F/M/D)

100%

WANTED!

Your tasks:

- You are responsible for the further development and implementation of the Hellabrunn species and nature conservation strategy
- As a curator, you will lead three dedicated animal care teams (aquarium/terrarium, predators and polar world) in a visionary manner and implement modern animal husbandry based on the species conservation strategy and master plan
- You initiate and supervise scientific in-situ and ex-situ projects and communicate or publish the results at conferences and in scientific journals
- You will work creative and sustainable in various EAZA programs
- You enjoy working with trainees and experts of the animal care team

Your profile:

- You have a university degree in biology or veterinary medicine.
- You have several years of experience in zoo biology and have a particular interest in water technology and aquatics.
- You have excellent verbal and written communication skills in German and English
- You are confident in using the PC.
- You have an exact and result-oriented way of working.
- You actively shape change processes and solve problems in a way that is tailored to the situation.
- You work independent and visitor oriented. You organize your daily work systematically.
- You think and act economically and use resources responsible.
- You keep track of work even during stressful situations.
- You are willing to work on public holidays and weekends.
- You are committed to perform above average.

Did we spark your interest?

Privacy information:

- We ask for your understanding that due to administrative and cost reasons, we unfortunately cannot return application documents sent by post. We therefore recommend that you do not use application folders when applying by post and do not submit any original documents. Documents from applications that are not considered will be destroyed in accordance with data protection regulations after the selection process has been completed.
- For data protection reasons, we are not allowed to process your application via any email address other than the email address listed above. Any application sent to us via any other email address will therefore be immediately deleted without reading.
- Your application contains data that we need to store and process. We comply with the General Data Protection Regulation and German data protection law. We only use your data for our selection process for suitable candidates and generally do not pass your data on to third parties. You can receive information about how we store your data free of charge and request its early deletion. Otherwise, your data will be deleted within the statutory deadlines after completion of the selection process, or if you have consented to longer storage, after 2 years at the latest.
