

Director of Operations – Abu Dhabi, United Arab Emirates

Due to the nature of this position and the current Director is in the notice period, we would like to post this confidentially. Further details about the company and position will follow in January 2023.

The ideal candidate is a highly analytical leader who will join our senior management team. You will be responsible for leading the company's regional operations (managing the projects department, associated budgets, staffing, ensuring animal welfare standards and operational compliance is followed, whilst in-line with contractual obligations).

Responsibilities

- Measure the effectiveness of all processes (budget, operations, and management, etc.)
- Lead and develop the operational and projects team, providing support, knowledge and guidance
- Assist with the development, including design and planning, of new facilities and projects both internally and externally with other companies, both the animal components as well as the technical aspects; this will include but not limited to animal interaction programs, aquariums, marine mammal facilities, and zoological parks.
- Develop and prepare project proposals, operational guidelines for animal care and facility training initiatives
- Ensure regular contact, visits and reports are received and managed throughout the various projects and/or sites.
- Coordinate cross-functional initiatives and projects

Qualifications

- Bachelor's degree in Business Management or related discipline 5 -10 years of relevant experience
- Strong interpersonal and communication skills
- Experience in zoo or aquarium management

Remuneration

- Tax Free Salary
- Health Insurance
- Performance related bonus incentives
